## INFORMATION REPORT

This material contains information affecting the National Defense of the United States within the meaning of the Espionage Laws, Title 18, U.S.C. Secs. 793 and 794, the transmission or revelation of which in any manner to an unauthorized person is prohibited by law.

SECRET-U. S. OFFICIALS ONLY

This is UNEVALUATED Information  The source evaluations in this report are definitive.  The appraisal of content is tentative.  (FOR KEY SEE REVERSE)  1. The old bridge across the Dyje River on the Breclav-Hodonin road has been demolished and a new reinforced concrete bridge is being built on the same site. The new bridge will be approximately 50 meters long and 12 meters wide.  2. Two pillars have been completed on the western side. The first is the main pillar on the bank, and the other stands about 10 meters from it in the river. The pillars are about 1½ meters thick and 13 meters wide. The top is about 4 meters above water level. About 20 blocks of reinforced concrete are stored on the site, 12 m. x 80 cm. by 60 cm.
